PleaseReview 7.2 release history.....	2

Overview

This document contains technical release notes relating to PleaseReview 7.2 server versions up to and including 7.2.5. As this is the initial release of 7.2, this document highlights new functionality only and you should follow the instructions in the upgrade guide on how to apply this to an existing system.

When upgrading from 7.1 or earlier, note that the upgrade guide contains full instructions and compatibility notes which you should read carefully before starting the upgrade.

PleaseReview 7.2 release history

Version	Release Date	Summary of patch
7.2.1	22 September 2022	<p>Initial 7.2 release:</p> <p>Fixed overdue email is sent when review is in recycle bin (PR-4146)</p> <p>Fixed table layout issue with merged cells in Word (PR-8478, PR-17113)</p> <p>Fixed hyperlink does not work if there are any changes to the hyperlink (PR-13907, PR-25823)</p> <p>Increased password regex length up to 8000 characters in Password Configuration setting for 'Password Allow' and 'Password Deny' (PR-15879, PR-25679)</p> <p>Fixed potential parsing exception error when changing regex for configuration settings Password Allow and Password Deny (PR-25499, PR-26003)</p> <p>Fixed unable to add user into workgroup when configuration setting 'Use email as username' is True (PR-17105)</p> <p>Implemented one-click button to collapse or expand comment box for Word and PDF review.
